## **Idea / Motivation**

I Decided To Make This Car Because Of It's Stunning Looks & Nice Décor. The Car Is Amongst My Favorites & The Model Seems To Be Makeable.

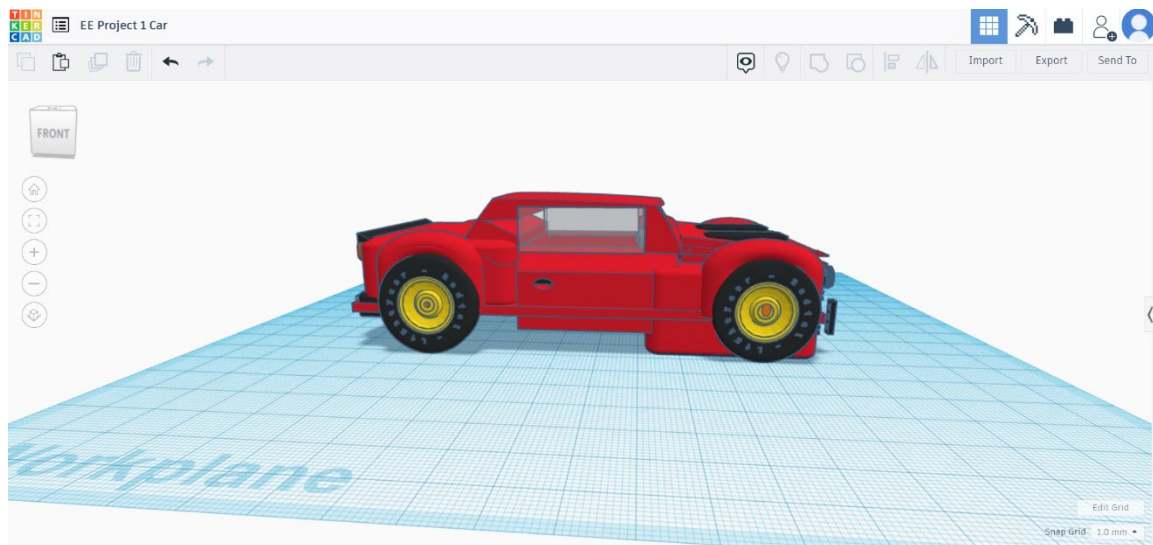

## **Description**

This Car Has Been Made Mostly By Red Colored Boxes Which Are Cut Into Required Holes As Per The Design. Some Of The Boxes Are Colored Black For Better Looks. For The Transparent Glasses, Wedges/Polygons Have Been Used. The Inside Of The Car Has Also Been Decorated With A Steering Wheel. On The Outside, 4 Headlights Have Been Applied On It. The Bonnet Is Also Furbished.
